ELECTROBRAID™ FENCE Patented

ElectroBraid™ is an easily installed, permanent electric fencing system designed to provide a safe and secure horse fence. It is strong and durable and a fraction of the cost of other electric fencing systems. This safe electric farm fencing can stand alone as a permanent perimeter fence.

ElectroBraid™ combines resilience with barrier strength. Like a boxing ring, ElectroBraid™ absorbs force and springs back. The outer braided jacket is made of very high grade of polyester fiber - as used in auto seat belts and parachute harnesses. This polyester fiber is dimensionally stable; after stretching, it returns to its original length.

SPECIFICATIONS

Fence	ElectroBraid
Roll Length	1200' and 600'

Made in Canada.

Bayco® Finish Line is the ideal fencing material for containing your horses. A fence that will protect but not harm. Choose Bayco® Finish-Line for your fencing project and for your peace of mind.

It is protected by vital UV inhibitors that maintain product strength, flexibility and beautiful appearance for years. Finish-Line is lightweight and easy to install. It can be used with any type of post. So whether you pick T-Posts, Wood Posts or Vinyl, Finish-Line Horse Fence will look beautiful and safely contain your horses.

Because it contains no wire, it will not lose its tension making Finish-Line Horse Fence virtually Maintenance Free. No unsightly sagging lines and no time wasted repairing fences.

Finish-Line Horse Fence delivers. You will not be disappointed. Made in Germany.

Patented Bracket System

Centaur® HTP® is Safer for Horses

When horses are an important part of your life, you want a fence specifically designed to be safer. Centaur's proprietary system utilizes HTP®, our exclusive cross-linked polymer technology, to create an incredibly strong and flexible fence. Each rail is installed in a continuous length, allowing impact to be absorbed by the entire length of the fence. Your horses stay contained and protected with no broken fence rails to cause devastating injury. Made in the USA.

SPECIFICATIONS

Fence	Centaur HTP
Roll Length	660' and 330'

Post space recommended	8', 10', 12'
Post type	Wood
Cost	Approximately 1.15 / foot plus accessories
Samples available	Yes

WHAT MAKES CENTAURS 5" FLEX FENCE STAND OUT ABOVE OTHERS?

Centaur's barrel tensioners constructed of heavy-duty steel make installation faster and easier. Available in one-way for short runs and two-way for long runs. Centaur's double barrel tensioner and single barrel tensioner are protected under U.S. Patent No. 6,648,305 and 6,848,678. Available in white, black or brown. They bolt to the post instead of being installed on the rail, which can cause sagging. What makes a flex rail fence look it's best is the highest quality accessories on the market!

PolyPlus[®] HTP[®]

PolyPlus[®] HTP[®] is a unique single-strand fence rail using 12.5 gauge galvanized high-tensile steel wire embedded in a tough, flexible HTP[®] Polymer coating. Made in the USA.

Low Maintenance Rail Fencing

“The strength of lumber & the durability of high-tech polymer”

WoodGuard low maintenance rail fencing starts with a structurally sound solid wood core. Next the lumber is treated with a non-toxic organic borate compound to protect against dry rot, termites, and fungus. Finally, it is then coated in an engineered, UV-stabilized plastic blend.

- Low maintenance rail fencing since 1978
- Ease of installation, no special tools required
- No reinforcements needed for support
- Plastic coating will not chip, crack, fade, or peel
- Structural lumber resistant to warp, twist or split

WoodGuard is the world’s first “Low-Maintenance” lumber product. Unlike other “Low- Maintenance” products available, only WoodGuard can be used like wood because it is wood!

Made in the USA.

SPECIFICATIONS

Fence	WoodGuard
Colors Available	White, Black
Warranty	20 years
Electric or Non Electric	Non Electric
Available kits	2, 3, 4 and Crossback rails
Also Available	Square posts, round posts, gates and
	Organic Round posts

We carry the full line of Gallagher products.
